# ABOUT COMPANY

---

D&M Civil Roadworks is a family-owned road construction company based in Merredin, operating for the past 5 years. Led by **Mervyn Garlett**, who brings 23 years of experience as a Grader Operator. Our dedicated team of 5 staff members serves the **Merredin, Katanning Shire, and Woodanilling Shire** regions. We are committed to delivering high-quality road construction services and enhancing infrastructure in our community.

# OUR **VISION**

---

To be Western Australia's leading road construction company, known for quality, reliability, and client-focused service, driving regional growth with innovative and sustainable infrastructure.

# OUR **MISSION**

---

To deliver high-quality, sustainable road construction services, enhancing infrastructure and exceeding client expectations through innovation and integrity.

Shire of Katanning  
Shire of Woodanilling

# OUR SERVICES

## ROAD CONSTRUCTION

D&M Civil Roadworks specialises in road construction projects, delivering high-quality road infrastructure tailored to meet the specific needs of our clients. Our experienced team uses advanced construction techniques and equipment to ensure the durability and safety of every road we build.

## ROAD MACHINERY SUPPLY

We offer a comprehensive range of road machinery for hire, including loaders, water tanks, graders, rollers, Bobcats, and site tippers. Our well-maintained equipment ensures efficient and reliable performance, supporting diverse construction and maintenance needs.

## ROAD MAINTENANCE

Our road maintenance services are designed to keep local roadways safe and functional. We provide regular inspections, timely repairs, and preventive measures to address wear and tear, ensuring smooth and safe travel for all road users.

## **EARTHWORKS AND EXCAVATION**

We deliver expert earthworks and excavation services, handling site preparation, grading, trenching, and more with precision and care. Our focus on safety and environmental sustainability ensures that our earthworks support successful infrastructure projects.

## **RURAL ROAD CONSTRUCTION AND MAINTENANCE**

We excel in constructing and maintaining rural roads, providing robust solutions to ensure long-lasting and reliable infrastructure. Our services support regional connectivity and economic growth, benefiting rural communities.

## **STORM WATER DRAINAGE**

We offer effective storm water drainage solutions, designing, installing, and maintaining systems to protect roads from heavy rainfall and flooding. Our sustainable practices and modern technology ensure resilient and functional road infrastructure.

## RESHEETING OF ROADS

Our road resheeting services rejuvenate unsealed roads by applying a new layer of gravel or other suitable materials. This process restores road surfaces, improves durability, and ensures a smoother, safer driving experience. We prioritise high-quality materials and precise application to enhance road longevity and performance.

## SHOULDER ROAD WORKS

We specialise in constructing and maintaining road shoulders to improve road safety and structural integrity. Our team ensures proper grading and material compaction to enhance stability, support drainage, and minimise wear and tear on the main road surface.

## CULVERTS

We design, install, and maintain culverts to ensure effective water flow management and prevent road flooding. Using durable materials and efficient construction techniques, we deliver culverts that are built to last while ensuring road and environmental safety.

# GET IN TOUCH

D&M Civil Roadworks values communication and is here to assist with any inquiries, project discussions, or service requests. Our team is committed to providing prompt and helpful responses to ensure your experience with us is exceptional.
